Zielona Gora

Dear Lukasz and Rafal

Thank you for the excellent development work you and your team provided Bluepod Media. The cross platform mobile development project, in particular the Air Rewardz app was outstanding and met our expectation and specification perfectly.

We particularly appreciated Exergy's management of the project, from excellent communication to on time delivery of the development stages. We also liked how you embedded your team within ours so that we could achieve the tight time scales we set ourselves, without the issues normally occurring when using third party developers.

The Bluepod management would like to extend a big thank you too for helping us achieve our development needs and look forward to a long term relationship with Exergy.

Kind Regards

Tony Ford
CTO Bluepod Media Worldwide Limited
